Press

"Complexity and diversity comes to mind while listening to Caveat's latest release 'Red'. One can't pin down one word to describe the audio assault that the band brings to you with the 7 unique tracks presented. 'My Messiah', 'M.O.D' and 'Vindication' are all prime examples of how Caveat takes you through a maze of riffage, time changes and colorful vocal melodies. So much to digest within every song, this album will have you listening over and over again hearing new things each time. Caveat's 'Red' puts the world on notice that Calgary Alberta Canada is the home of new original heavy metal. 9/10
