Focus Tracks

[2] The Effect, [5] Next Phaze (radio remix), [6]
Tornadic Activity (radio remix)

Background Information

Pitch Union was formed from the best of the best professional musicians Windsor, Ontario has to offer. Thunderous drums, driving guitars, and vocals that will be sometimes sweet but given the opportunity they are of tsunami-like proportions.

This CD rips the face off your typical rock album by combining metal, emo and rock under one roof. It harkens back to the days of epic recordings by taking the listener on winding journeys through vocals and music and is akin to be in a strange new land where something interesting can be found around every twist and turn in the road. Included on this release are two previously unreleased radio mixes of Next Phaze and Tornadic Activity.
