Rock

### Focus Tracks

[1] Let It Save You, [3] Pleasure, [7] The Only Cure, [10] Transmission

### Background Information

Formed in 2003, twelve34 has spent the last 4 years honing their craft and bringing their electric live show to the stage. After 2006's musically diverse "Sinful Melody" EP, the band has returned to their songwriting roots of previous years to release the full-length rock-and-roll album "The Only Cure".

Described as "rock-and-roll with a mustache" by lead singer Jasen Colson, the band's music crosses several rock genres, unified by a common retro-rock sound. Colson, along with his band mates Dave Doran, Chris Amos, and brothers Eric and Jay St-Cyr, deliver an exciting sound that blends influences such as Led Zeppelin, Guns and Roses, and Yes.
