Tripchord Inks Deal with Cyclone Records Management

Toronto, ON - October 23, 2006 -- Cyclone Records has inked a management deal with Toronto metal/hard rockers Tripchord. Part of this agreement is the release of their next CD, "Surviving the System."

Trew explains it this way, " It was a natural progression of the relationship we have been building over the past year. By keeping all functions under one roof, duplication of efforts is eliminated, synergies between various initiatives is maximized, costs are reduced and communication between all concerned is at its best. Essentially, the left hand always knows what the right hand is doing. Decision-making is closer to home and can be made quicker to take advantage of time-sensitive opportunities. We are proud to have Tripchord in our roster and they are in good company."

Their "Surviving the System" CD, set to release on November 18th, is their second release but is truly a breakout album from a band that is ready to hit the international stage. This release takes them to a whole new level of power, melody and rhythmic mayhem. Featuring 11 tracks of diverse power and subtlety, this is one disc you won't want to take out of your CD player.

"Cyclone Records has built alliances in many aspects of the industry and we are asking our friends to help us out with this release," explains Brad Trew. A synchronized release event is scheduled for November 4th involving terrestrial radio, streaming internet radio and podcasters from around the world. "We are very excited about this release and have aggressive goals for the CD and the band. With the supporters who have thus far stepped up to the plate, we are very confident in reaching those goals."

About Tripchord:

Based in Toronto, Ontario, Tripchord formed in early 2000 and has been a major force in Toronto's independent music scene ever since. With a unique blend of musicians, Tripchord has been able to produce an original style of hard rock, metal and funk. Never slowing down, but always taking the time to nurture the music has made this band a "must see" show.

They have had the pleasure of sharing the stage with Anvil, Micheal Graves (Misfits), Robin Black, and Red Light Rippers...just to name a few. With a powerful live show, original sound, image and attitude, they have survived in one of the toughest music markets where many others have failed.

With the best front man, Tommy Gerald, leading the way, the unique guitar playing of Colin Ward, the solid backbone of Trevor on drums, and the rumbling bass lines of Dan, Tripchord is the best thing hard rock/ metal has to offer.

To keep up to date on the band, visit www.tripchordlive.com or their label site at www.cyclonerecords.ca.
